U.S. Appln. No. 09/925,586
Amendment Dated Sep. 30, 2005
Reply to Office Action of June 30, 2005
Docket No. BOC9-2000-0032 (178)

This listing of claims will replace all prior versions and listings of claims in the instant application:

LISTING OF CLAIMS

Claims 1-18. (Cancelled)

19.   (Currently Amended)

A method for vehicle navigation comprising the steps of:

accessing a publicly accessible Web site using a computing device that is remote from a vehicle;

identifying within said Web site at least one destination;

automatically determining navigation information for said destination, wherein at least a portion of said navigation information includes geographic coordinates for said destination;

storing said navigation information in a [[first]] memory, wherein said [[first]] memory is remote from said vehicle;

providing a portable storage media, wherein said [[first]] memory is within said portable storage media; [[and]]

transferring said portable storage media to a self-contained, in-vehicle navigation device in order to transfer said navigation information_;

determining whether a data format of said navigation information conforms to data requirements of said in-vehicle navigation device prior to transferring said navigation information; and

converting said data format of said navigation information to an alternate data format prior to transferring said navigation information if said data format does not conform to data requirements of said in-vehicle navigation device.

U.S. Appln. No. 09/925,586
Amendment Dated Sep. 30, 2005
Reply to Office Action of June 30, 2005
Docket No. BOC9-2000-0032 (178)

20-25.   (Cancelled)

26.   (Currently Amended) A machine-readable storage having stored thereon, a computer program having a plurality of code sections, said code sections executable by a machine for causing the machine to perform the steps of:

accessing a publicly accessible Web site using a computing device that is remote from a vehicle;

identifying within said Web site at least one destination;

automatically determining navigation information for said destination, wherein at least a portion of said navigation information includes geographic coordinates for said destination;

storing said navigation information in a [[first]] memory, wherein said [[first]] memory is remote from said vehicle;

providing a portable storage media, wherein said [[first]] memory is within said portable storage media; [[and]]

transferring said portable storage media to a self-contained, in-vehicle navigation device in order to transfer said navigation information_;

determining whether a data format of said navigation information conforms to data requirements of said in-vehicle navigation device prior to transferring said navigation information; and

converting said data format of said navigation information to an alternate data format prior to transferring said navigation information if said data format does not conform to data requirements of said in-vehicle navigation device.
